Dear Mr. Gibson:

I am a 25-year Laguna resident. The annual fireworks display is something my children and grandchildren look forward to and thoroughly enjoy. It seems to be a shame that this simple pleasure that occurs once a year can't be exempted from the water regulations.

Laguna has consistently received high marks for the purity of our coastal water and beaches.

Surely there must be an easy fix to allow fireworks display to continue off Heisler Park's Monument Point. This is the safest and most logical location for viewing. Please, consider an exemption to allow this fine tradition to continue.

Best regards,

Paul Puma
